# David's Ozark Scarf

## MATERIALS

2 skeins of Ozark Handspun (34 yards each)

1 rectangular Butterfly Loom

Simple yarn for tying like Encore by Plymouth

Optional: For the purse, a Quick Count Plastic Canvas 10.5" x 13.5" in a complementary color. These are available at Michael's.

## INSTRUCITONS

Using Ozark Handspun, wrap the loom and then knot with your plain yarn using the ladder stitch according to the directions that come with the loom. Repeat twice more.

### Finishing

The three rectangles will be attached by the short ends. Put the right sides together with the loops out on the right side. On the wrong side (where the knotting is visible), join the two pieces together by putting the needle through the X on one side, then the X on the other side and back again. Then move up to the next set of Xs. Keeping your tension loose, continue until the two pieces are joined. Add the third piece in the same way.

Cut all loops unevenly. Cut the remaining yarn into 9" lengths, more or less, depending on the yarn. For instance, if there is a beautiful fluffy section, you may want to cut before or after that section. Divide these pieces in thirds and tie the pieces on irregularly throughout the piece. Untie the knot where you joined the end of the Ozark to the beginning and trim the ends to match the length of the other pieces.
